Heredity

Volume 58 Number 1 February 1987

M. C. Cermeño, B. Friebe, F. J. Zeller and K.-D. Krolow
Nucleolar competition in different (A/B)(A/B)RR and DDRR tetraploid triticales 1

Bryan K. Epperson and Michael T. Clegg
First-pollination primacy and pollen selection in the morning glory, *Ipomoea purpurea* 5

P. Arana, N. Genriques-Gil and J. L. Santos
Orientation behaviour of interchanges forming chiasmata in interstitial regions: A cytological approach 15

N. Bumstead, L. I. Meeser, B. M. Freeman and A. C. C. Manning
Genetic transformation of chickens using irradiated male gametes 25

K. Janson
Genetic drift in small and recently founded populations of the marine snail *Littorina saxatilis* 31

C. Biémont and A. Aouar
Copy-number dependent transpositions and excisions of the mdg-1 mobile element in inbred lines of *Drosophila melanogaster* 39

S. C. H. Barrett, A. H. D. Brown and J. S. Shore
Disassortative mating in tristylous *Eichhornia paniculata* (Pontederiaceae) 49

J. Cabrero and J. P. M. Camacho
Inbreeding in a natural population of the grasshopper *Chorthippus nevadensis* 57

G. M. Hewitt, T. M. East and M. W. Shaw
Sperm dysfunction produced by B-chromosomes in the grasshopper *Myrmeleotettix maculatus* 59

A. F. Shihab and D. J. Heath
Components of fitness and the PGI polymorphism in the freshwater isopod *Asellus aquaticus* (L). 1. Fecundity selection 69

W. Powell and J. M. Dunwell
In vitro genetics of barley (*Hordeum vulgare* L.): Response of immature embryos to 2,4-dichlorophenoxyacetic acid 75

M. J. Puertas, A. Ramirez and F. Baeza
The transmission of B chromosomes in *Secale cereale* and *Secale vavilovii* populations. II. Dynamics of populations 81

J. S. Parker
Increased chiasma frequency as a result of chromosome rearrangement 87

A. S. Robinson and Pham Van Lap
Cytological, linkage and insecticide studies on a genetic sexing line in *Anopheles stephensi* Liston 95

Derek A. Roff and Timothy A. Mousseau
Quantitative genetics and fitness: lessons from *Drosophila* 103

R. A. Ennos and R. K. Dodson
Pollen success, functional gender and assortative mating in an experimental plant population 119

H. Ochman, J. S. Jones and R. K. Selander
Large scale patterns of genetic differentiation at enzyme loci in the land snails *Cepaea nemoralis* and *Cepaea hortensis* 127

Julia White and H. Rees
Chromosome weights and measures in *Petunia* 139

L. I. Mazon, M. A. Martinez de Pancorbo, A. Vicaria, A. I. Aguirre, A. Estomba and C. M. Lostao
Distribution of *Cepaea nemoralis* according to climatic regions in Spain 145

Book Reviews 155

Volume 58 Number 2 April 1987

Philip W. Hedrick
Estimation of the rate of partial inbreeding 161

C. Biémont and C. Gautier
Mdg-1 mobile element heterozygosity in *Drosophila melanogaster* 167

Y. A. El-Kassaby, M. D. Meagher, J. Parkinson and F. T. Portlock
Allozyme inheritance, heterozygosity and outcrossing rate among *Pinus monticola* near Ladysmith, British Columbia 173

Kirsten Wolff and Wilke Van Delden
Genetic analysis of ecological relevant morphological variability in *Plantago lanceolata* L. I. Population characteristics 183

David E. McCauley and Walter F. Eanes
Hierarchical population structure analysis of the milkweed beetle, *Tetraopes tetraphthalmus* (Forster) 193

T. H. Day, S. Miles, M. D. Pilkington and R. K. Butlin
Differential mating success in populations of seaweed flies (*Coelopa frigida*) 203

T. H. Day and R. K. Butlin
Non-random mating in natural populations of the seaweed fly, *Coelopa frigida* 213

M. Westerman, N. H. Barton and G. M. Hewitt
Differences in DNA content between two chromosomal races of the grasshopper *Podisma pedestris* 221

Graham P. Wallis
Mitochondrial DNA insertion polymorphism and germ line heteroplasmy in the *Triturus crustatus* complex 229

Willem J. M. Kerver and Gerrit Rotman
Development of ethanol tolerance in relation to the alcohol dehydrogenase locus in *Drosophila melanogaster*. II. The influence of phenotypic adaptation and maternal effect on survival on alcohol supplemented media 239

Nickolas M. Waser
Spatial genetic heterogeneity in a population of the montane perennial plant *Delphinium nelsonii* 249

H. S. Pooni, D. T. Coombs, P. S. Virk and J. L. Jinks
Detection of epistasis and linkage of interacting genes in the presence of reciprocal differences 257

Kenneth Mather
Consequences of stabilising selection for polygenic variation 267

J. Rodrigues de Miranda and Paul Eggleston
A comparison of substitution and addition designs for the analysis of competitive interactions in *Drosophila melanogaster* 279

A. F. Shihab and D. J. Heath
Components of fitness and the PGI polymorphism in the freshwater isopod *Asellus aquaticus* (L.) 2. Zygotic selection 289

Jonathan F. Wendel, Marlin D. Edwards and Charles W. Stuber
Evidence for multilocus genetic control of preferential fertilisation in maize 297

C. R. Leach and D. L. Hayman
The incompatibility loci as indicators of conserved linkage groups in the Poaceae 303

M. S. Johnson, J. Murray and B. Clarke
Independence of genetic subdivision and variation for coil in *Partula suturalis* 307

Book Reviews 314

Volume 58 Number 3 June 1987

Brunilda Troncoso, Raúl Godoy-Herrera and Waldo Mora
The development of larval movement patterns in *Drosophila* 321

G. Brian Golding
Multiple substitutions create biased estimates of divergence times and small increases in the variance to mean ratio 331

J. P. M. Camacho and J. Cabrero
New hypotheses about the origin of supernumerary chromosome segments in grasshoppers 341

J. de la Torre, E. Torroja, J. Gosálvez and C. López-Fernández
A model for quantifying genetic recombination in chromosome polymorphisms due to supernumerary heterochromatic segments 345

Michel Raymond, Nicole Pasteur and George P. Georghiou
Inheritance of chlorpyrifos resistance in *Culex pipiens* L. (diptera: culicidae) and estimation of the number of genes involved 351

C. Vega, A. Fominaya and E. Ferrer
Influence of chromosome structure on the degree of meiotic pairing of intercultivar wheat hybrids (*Triticum aestivum* L.) 357

J. Ellen Marsden, Charles C. Krueger, Harold L. Kincaid and Bernie May
Inheritance of duplicated fumarase and phosphoglucomutase loci in lake trout (*Salvelinus namaycush*) 365

Denson Kelly McLain, Karamjit S. Rai and Malcolm J. Fraser
Intraspecific and interspecific variation in the sequence and abundance of highly repeated DNA among mosquitoes of the *Aedes albopictus* subgroup 373

A. J. Klarenberg, K. Sikkema and W. Scharloo
Functional significance of regulatory *map* and structural *Amy* variants in *Drosophila melanogaster* 383

Lawrence J. Weider and Paul D. N. Hebert
Microgeographic genetic heterogeneity of melanic *Daphnia pulex* at a low-Acrtic site 391

P. Lavery and S. H. James
Complex hybridity in *Isotoma petraea*. VI. Distorted segregation, gametic lethal systems and polulation divergence 401

Jesús Navas-Castillo, Josefa Cabrero and Juan Pedro M. Camacho
Chiasma redistribution in presence of supernumerary chromosome segments in grasshoppers: dependence on the size of the extra segment 409

Mithu Mukherjee, D. O. F. Skibinski and R. D. Ward
A simulation study of the neutral evolution of heterozygosity and genetic distance 413

Ary A. Hoffmann and Frederick M. Cohan
Genetic divergence under uniform selection. III. Selection for knockdown resistance to ethanol in *Drosophila pseudoobscura* populations and their replicate lines 425

Mark H. Gromko
Genetic constraint on the evolution of courtship behaviour in *Drosophila melanogaster* 435

M. Barbancho, F. J. S. Sánchez-Cañete, G. Dorado and M. Pineda
Relation between tolerance to ethanol and alcohol dehydrogenase (ADH) activity in *Drosophila melanogaster*: Selection, genotype and sex effects 443

Edward M. Golenberg and Eviatar Nevo
Multilocus differentiation and population structure in a selfer, wild emmer wheat, *Triticum dicoccoides* 451

J. Albornoz, A. Domínguez, E. Alcorta and E. Santiago
Chromosomal effects in egg laying of *Drosophila melanogaster* under different conditions 457

Jody Hey and David Houle
Habitat choice in the *Drosophila affinis* subgroup 463
